The following bibliography of 237 titles was compiled after consulting library indexes of published books and indexes of magazine and journal articles. Articles were located through Psychological Abstracts (1927 to 1970), Child Development Abstracts (1927 to 1970), the Education Index (1929 to 1970) and The Reader's Guide to Periodical Literature (1893 to 1970). Subject headings searched included "toys", "play", "recreation", "games", "child" and "children". The particular references chosen to be included in this bibliography deal briefly with the general topic of children's play and toys. All references to educational toys located from any source are included.
